THUG STAGES DARING STREET CAR ROBBERY

PROWLER IS SOUGHT BY DETECTIVES

Motorman Victim of Negro Bandit Near Cemetery

PASSENGER OBTAINS \$22

Mysterious Appearance of Man Reported to Police

Following one of the most daring street car robberies ever staged in the city, police Friday were taking every precaution to bring about the capture of a negro prowler believed to be at large in the west end residence section of the city.

A negro bandit held up and robbed C. E. Miller, motorman for the Lima City Street Railway Co., at the point where the W. Market-line touches the Spencerville at 2 p. m. Thursday and escaped with \$22 in cash.

About 12:30 a. m. Friday H. H. Lansing of Hotel Barr notified police that a negro prowler was seen at the intersection of Bricey and Charles-st and that this was the third or fourth time he had been sighted at that place during the week.

Police immediately secured the neighborhood but the man had fled. A careful watch will be kept throughout the city, however, and his capture is predicted.

The car robbery occurred near Woodlawn cemetery at the Spencerville. Miller had just reached the end of the car-line and changed his trolley when the negro appeared, emerging from a clump of bushes alongside the road.

DOOR OPENED

The car was in motion when he reached the car-line, and Miller, thinking the fellow was headed for town, stopped and threw open the door.

The man mounted the car, took a small nickel plated revolver from his pocket, and commanded Miller to stop the car. He then "risked" the motorman and made away with \$22 in bills and cash.

After ordering Miller to "start the car and keep going," he disappeared the way he had come, into the bushes.

Miller enlisted the aid of some workmen who were building a house near the scene of the robbery and the men combed the district, but were unable to find any trace of the negro. One of the workmen told police that he had seen the fellow, who was tall and thin and wore a mustache, prowling about the vicinity early in the afternoon.

Thursday's robbery was the second in which the railway company has been victimized, to occur within a month. Two negroes, neither of whom answered the description of the fellow who perpetrated the last job, after beating Jess Cogswell, another workman, into insensibility, robbed him of \$45 and escaped.

A squad of police scoured the western portion of the city for the negro for several hours after the robbery occurred, but no trace of him could be found.

H. A. Bendy, president of the railway company said Thursday that every effort will be made to apprehend the thief and bring him to justice, no matter what expense to the company may be.

ACTRESS IS DEAD

Large Fortune is Left by Lotta Crabtree

ELIJAH — (By Associated Press) — The death last night of Lotta Crabtree, actress, who died her way to a fortune thru the mining camps of California and the music halls of Broadway, has left a curiosity as to what Lotta had done in disposing of her estate. She had promised her friends a surprise.

The actress, who died in her 70s without kin, had added the profits of her theatrical enterprises to larger sums gained in real estate speculation in New York and elsewhere. She owned property in many places and her fortune has been estimated from \$100,000 and a half dollars to three times that amount.

She will be buried next Sunday in the Woodlawn cemetery, New York. Beside her brother, "Jack" — the man who managed her career — until his death.

KIDNAPED

ROAD DEBT OF COUNTY IS SMALL

\$830,000 Outstanding; Limit Set at \$1,370,000

STATE SENATOR HERE

\$919,000 Available Next Year by One Percent Law

Allen-co is in a position to double its state highway mileage without exceeding the limit of bonded debt set by law, it was disclosed Thursday at a conference between Sen. James Alsdorf and county commissioners at the city hall.

Whether the county will increase the indebtedness with an extensive road building program during 1925 depends entirely upon the amount of state and federal aid received. Commissioners say that if the state and federal road fund is increased the indebtedness will soar. Otherwise the indebtedness would be lowered.

The bonded indebtedness of the county is \$830,000, of which amount \$174,641 will be paid off this year, and about \$205,000 will be available for retirement of bonds in 1925.

Total valuation of property in the county is estimated conservatively at \$137,000,000. Under the state law the county can issue bonds for road building up to one per cent of the valuation of property, Sen. Alsdorf told the commissioners.

\$50,000 IN 1925

Under this rule, the county might issue bonds in the sum of \$137,000 for roads. This is however not the intention of the commissioners, as the program of building is going forward year by year in a satisfactory manner, they say.

Figures worked out by Sen. Alsdorf show that in 1925 Allen-co will be able to appropriate \$50,000 for state road building without increasing the amount of outstanding bonds.

At the present rate of income, the county can retire all outstanding road bonds within five years, and also do some additional building.

Whether it will be advisable to retire the bonds so rapidly has not been discussed by the commissioners according to J. O. Montague, clerk.

In the matter of outstanding road bonds, Allen-co is in better condition than many of the other populous counties in Ohio. A large per cent of them are up to their mark, and cannot go a cent higher.

Allen-co however, if desired, could issue up to \$919,000 in bonds for building state roads without going over the limit. About \$150,000 of the road bonds outstanding were issued to pay for bridges.

Battery Trouble Develops in Plane at Frisco

SAN FRANCISCO — (By Associated Press) — All the facts indicate that a compromise between the interests of the United States and the Russian soviet government is to be desired and that it is quite within reach. Foreign Minister Tchitcherin of Russia declared today in a belated reply to the pronouncement of American policy towards Russia made by Secretary of State Hughes.

The Russian foreign secretary in a carefully prepared 2,500 word interview with the Rosta agency, bristling with argumentation, but marked by polite but emphatic language set forth the Russian point of view on Russo-American relations and, according to the interpretation placed upon his declarations by many persons here, held out the olive branch to the United States.

From the fact that the Soviet government serves the interests of the laboring masses as well as of the capitalist, M. Tchitcherin said, "it does not follow that a compromise between the two governments is not possible. On the contrary, all the facts indicate that such a compromise is to be desired and that it is quite within reach."

Concerning Russia's debt to the United States, he declared that his government had already offered to negotiate with Washington respecting this question. He cited the recently concluded Anglo-Russian treaty as showing that "it is quite possible to make indemnity agreements with other states which will be profitable to both sides."

So Judge Charles W. Hoffman today gave Upsham his freedom by granting a divorce to Mrs. Upsham.

MYSTERY TUBES DISCOVERED

Subterranean Passages Under Washington Are Found

TALK OF SPIES IS REVIVED

Linked With War Days Because of German Papers

WASHINGTON — (By United Press) — A labyrinth of subterranean passages discovered beneath several blocks of Washington's most exclusive residential section, littered with German newspapers of 1917 and 1918, has revived some of the old war atmosphere in the capital and talk of spies.

A gaping hole made when the wheels of a motor truck sank thru the earth led to its discovery and investigation. Once penetrated it was found to be large enough for a person to stand upright, walled with chipped tiles and wired for electricity.

From soon after dawn the crowds had been gathering, awaiting a chance to greet the great airship built by the Zeppelin Works at Friedrichshafen for the United States navy, to which it will be consigned after a trans-Atlantic flight to Lakehurst, N. J.

As the dirigible came into sight and circled over the city, a million handkerchiefs fluttered mute greetings which were returned by Dr. Hugo Eckener, director of the Zeppelin Company and his crew.

At the Staaken Airdrome, the ZR-3 slowed down long enough to drop a parcel of mail.

President Ebert watched the ship from the gardens adjoining the executive mansion while most of the other government leaders viewed the ship from the windows and rooftops of their respective offices.

The ZR-3 showed off to advantage so far as her general outline were concerned. A faint streak of sunlight broke thru the clouds just as she rose into sight, giving a silvery lustre to her tremendous hull.

Investigators also discovered an iron ladder extending downward into the earth. After considerable digging, several rings of the ladder were uncovered and a tunnel which was believed to be connected with apartments still deep in the earth was revealed.

As the party moved on, its explorations some passages narrowed and the investigators were forced to worm their ways on hands and knees. At one place the labyrinth widened into a cross roads with miniature avenues branching out in several directions.

The new papers and office fixtures have led to the belief that the tunnels may have been in the dozens of spies during the war but its wide extent and the purpose of its many avenues are not yet understood.

The electric light installation and a number of bottles found are, however, believed to be a later inhabitation of bootleggers.

In every man there is a struggle between the original human being, who is ruled by impulse and the social structure which places inhibitions on him.

The fight case is simply a case where the primitive instincts were too strong for the inhibitions.

No doubt many of these sort of cases would be avoided if divorce was easier, Darrow said.

The famous Chicago attorney is in Ohio to visit Kinross, his birthplace, in Trumbull-co.

"Society," said Darrow, "makes certain rules, habits and customs for the regulation of the sexes. The primitive man and the animal before him knew nothing of such rules."

No doubt many of these sort of cases would be avoided if divorce was easier. I hope society will not take Hight's life."

100 TRAFFIC VIOLATORS FINED; COSTS ASSESSED

TEN traffic violators in criminal court Friday morning were fined \$5 and costs each. Judge Neil R. Polling suspended the fine but collected the costs.

Those charged with ignorance of "stop" signs were: E. L. Mahan, 541 Albert-st; F. L. Newcomer, 812 Dingledine-av; J. M. Easter, R. F. D. 4 and J. A. Holtapple, Elida.

Ray Hurst, 923 Leland-av, was fined for parking without tallights, and W. L. Roberts, 223 S. Main-st, and Walter Englund, 1015 Leland-av, pleaded guilty to the same offense.

L. Taylor, 369 S. West-st and Harold Day, Pringle-av, admitted parking their cars in the wrong direction and C. Wrenn, R. F. D. 2, paid costs for driving with his cut-out open.

An unparalleled majority for the Republican ticket from President Coolidge down was predicted by Roosevelt, speaking of the New York state situation.

He will leave Washington tonight for Oyster Bay where he will be formally notified of his nomination on Wednesday.

As Roosevelt left the White House he met Edward A. Simons, New York publisher, and during the conversation Simons wrote out a check described as the first campaign contribution for the Republicans in New York.

BOY VICTIM OF MYSTERY SHOT

Found Slain in Canton Home; Chum Sought

CANTON — (By Associated Press) — Police are investigating mysterious circumstances surrounding the fatal shooting last night in the home of Mr. Benjamin Goldfarb, 102 Kocher, 15, a sophomore at McKinley high school, and the son of Mr. and Mrs. George Kocher of this city.

The body, with a bullet hole in the head, was found in the furnace room by Mrs. Goldfarb.

Glen Goldfarb, 16, a close friend of the dead boy, and with whom he was last seen, is being sought by police.

Detectives said evidence indicates that the Kocher boy was killed in the attic and carried to the basement after a towel had been wrapped about his head.

The two boys, close friends, had arranged to spend the afternoon at the Goldfarb home and they were last seen at 2 o'clock in the afternoon.

The body of the dead boy was not found by Mrs. Goldfarb until about 10 o'clock last night.

Some time during the day the Goldfarb boy drew out \$200 from his savings account in a bank here.

LIBRARY BRANCH COMPLETED

Community Center to Be Opened at South High

3,000 BOOKS PROVIDED

First Station of Kind to Be Established Here

Branch station of the Lima Public Library, located in the new addition at South high school will probably be opened within ten days, Miss Georgia McAfee, city librarian, said Friday.

The new branch will be the first ever started by the local city library. It is so timely that has been the need here for a number of years—especially since the time the southeastern part of the city began its building and expansion movement.

Capacity of the new library is 5,000 volumes, 3,000 of which will be on the shelves when the branch is opened, Miss McAfee said. Others will be added from time to time.

The branch was to have been opened next week but officials of the public library have found it impossible to get a capable school librarian. They have a number of applications on hand, however, and should have one chosen shortly, who will meet the qualifications of an Ohio high school librarian. Whoever is selected for the position will become a member of the staff of the Lima Public Library.

TEACHER AIDS

Much credit in the preliminary work of starting the branch at South high school has just been given to Miss Helen Meredith, head of the English department. Several years ago she began the nucleus of the library and at present the school has nearly 1,500 volumes to donate to the branch. These, together with the books the Washington school library has donated, are now at the public library and are being mended and repaired in order to be ready for use when the branch opens.

A set of beautifully illustrated children's books is being purchased for the collection with the \$50 raised and given last year for that purpose by the South Girls' Welfare club, Miss McAfee said.

The station is an example of the new type of school-community library. It is to be open to the community two nights a week according to Miss McAfee. Located on the east end of the new addition, facing Pinetop, it will have plenty of natural light. It has both outside and inside entrances. The school auditorium is directly west of the room.

RAILROAD COMPLETING FREIGHT TRUCK PLANS

A package trucking line will be established between Lima and Ft. Wayne by the Pennsylvania Railroad Co. An extra truck will leave here every day for Van Wert and Delphos. Half the trucks will be furnished by the Ft. Wayne station, the other from Lima.

This will be effective Oct. 1 and according to plans, now made one truck will leave here at 6 a. m. and the other local truck at 8 a. m. The car from Ft. Wayne will arrive here at 4 p. m., this being the only one from there. As many trucks as will be necessary to do the business will be used.

A local package freight is also being established between Lima and Mansfield by the railroad and in this way better service will be given the public as well as reducing the expenses of the company.

MISSING BANK GUARD IS SOUGHT BY POLICE

SPRINGFIELD, Mass.—Chief William J. Quinn and the entire local detective bureau, augmented by private forces, are this morning scouring the city of New Haven, Conn., in search of William J. Haslin, bank guard, who yesterday morning disappeared with \$10,000 in \$20 bills. Haslin was seen to board a train for New York City yesterday morning in Thomas H. Benton, a Boston and Albany railroad detective.

Benton did not learn of the robbery until last night, having been out of the city. He informed the police and an investigation showed that the guard had paid the conductor on the train a cash fare to New Haven.

BOY SCOUT "CORNER" IS PLANNED AT LIBRARY

A boy scout corner, with books relating only to scout work, is being arranged at Lima Public Library. Miss Georgia McAfee, librarian, announced.

Miss McAfee has sent away already for a number of books written especially for scout executives by Franklin Mathews, national boy scout librarian. Other books recommended for scouts are being listed by Miss McAfee and she will send for them soon.

J. M. Butcher, local scout executive, is cooperating with the library in getting the corner established. Its location is at the top of the stairs into the library, to the left of the entrance.

JAZZ TABOO THIS WINTER

Dancing Masters Predict Return of Stately Gliding Steps

CHANDLER PEAK AND EDWINA MARTINE WECKLER ILLUSTRATE INCORRECT DANCING POSITION (LEFT) AND CORRECT POSITION.

Earmarks of the more stately manner of gripping hands are to see a return of the gliding movement and modest dance of yesterdays.

These earmarks are naturalness, gliding grace restraint and sobriety—all of which according to American dancing instructors are lacking in varying degree in our modern, clutching fox trot, jazz strangle holds and frenz

This is your last chance to see a return of the gliding movement, that distinguished the waltz, two-step and some of the more graceful if less lively dances.

SPECIAL COURT SERVES YANKS

Privileges Accorded Americans
Residing in Palestine

ENJOY CAPITULATION RIGHT

May Change When British
Mandate is Ratified

JERUSALEM — (By Associated Press)—Citizens of the United States living in Palestine are accorded privileges over and above those of citizens and subjects of states who are members of the League of Nations. This is true now pending American ratification of the British mandate for Palestine, but will probably cease to be the case after the United States has even gone out of their

government will have signed the convention recognizing the mandate. The convention, it is believed, will secure for Americans in Palestine the same rights as fall to subjects of states who are League members, but no more. The status of Americans in Palestine will then probably be the same as in Syria, to the French mandate for which the United States was reported recently to have agreed.

POSITION VAGUE

For the present Americans here enjoy the rights of capitulations which, before the dismemberment of the Turkish empire, all great powers insisted on maintaining for their citizens. America has not renounced its capitative rights in Palestine, and the American consul is the only one holding court and trying cases between American residents.

The position of the American consular court in Jerusalem is a little vague because it runs parallel with the British system of justice now in force. The British government, however, is not known to have raised any objection to the existence of the consular court. The Palestine authorities have even gone out of their

way to effect judgments made by the consular court. An American sentenced to prison by the consular court may be locked up in a Palestine jail.

United States Consul Oscar S. Heizer, having received no instructions to the contrary, continues to sit in judgment over American residents who get into trouble, but he is not sure how long this condition will continue.

LIMA MAN GIVEN ESKIMO DOG

Local Radio Expert Meets
MacMillan Arctic Expedition

PUPPY GIFT FROM LEADER

Details of Schooner's Arrival
Given by M. B. West

An interesting story is told of the arrival of the MacMillan Arctic Expedition in America by M. B. West, local radio expert, who met the schooner Bowdoin off the coast of Maine.

West has just returned to Lima with one of the Eskimo puppies brought back by MacMillan from the north. His story of the arrival of the ship and its crew is as follows:

"Upon our arrival at Wiscasset we found reservations had been made for us at the famous old Wiscasset Inn, in which all of the traditions of New England hospitality are still preserved. Each evening the crew would congregate in the reception hall, the ladies of the party would pop corn at the open fire place, where a fire with logs was kept continually burning, and the genial host provided cider in a large straw demijohn.

Many MESSAGES

On Friday evening, we went to the dock at which the schooner Bowdoin was later to arrive, and upon which F. H. Schnell, of the American Relay League had arranged one of the new high power short wave radio transmitters, especially for communication with the Bowdoin. This was particularly fortunate, for as the Bowdoin approached the United States, message after message of congratulation arrived to Dr. MacMillan and members of the crew aboard. In all, some 50 messages were handled during the evening.

Early next morning we went to Boothbay Harbor, about 16 miles by road, and boarded a fast motor boat in which we proceeded to sea, meeting the Bowdoin about 25 miles off shore, and were cordially invited aboard by Dr. MacMillan. It was certainly a pleasure to see the members of the crew, and the staunch little ship in fine trim, everybody well, and, of course, destined to get home once more.

after an absence of a little more than 15 months.

"The ship was loaded with trophies of the north, walrus tusks, narwhale horns, furs, an Eskimo kayak or canoe, and lastly what interested me most, six Eskimo dogs, two of which were puppies not more than 10 weeks old, and of the pure bred yellowish white, most northerly strain of Eskimo Husky. The puppies interested me so much that I spent a good portion of the time aboard playing with them. As we neared Wiscasset, numerous small vessels joined the Bowdoin, together with a steamer especially chartered by members of the Press and various picture syndicates and as we neared Wiscasset we could discern the large crowd which came there to welcome MacMillan and his crew from their long journey.

LARGE CROWD

"The little dock and harbor was literally thronged with people, and a freight train stood on the main line because it was impossible for it to proceed thru the crowds. The tops of the cars were crowded with people for its full length. Dr. MacMillan and members of the crew were quickly taken to short in a motor launch, and conducted to the Courthouse green, where suitable exercises took place and refreshments were served to members of the crew and their friends. The crowd immediately came aboard the Bowdoin, eager to examine the many strange trophies, which of necessity had been lashed to deck or stowed in any place possible, in order that they could be brought along. Later that evening, as we gathered around the fire place in the Inn, members of the crew told us many interesting stories of their sojourn in the far north during the long winter night.

"During the trip into Wiscasset the day before, I had expressed my desire for one of the puppies, little thinking that there would be any possibility of securing one, as I had been informed by Mr. Robinson, Dr. MacMillan's assistant, that they all belonged to members of the crew, excepting one of the puppies which had been promised to a friend of Dr. MacMillan, and the other one which Dr. MacMillan had brought along for himself. You can imagine my surprise and delight when the next day Dr. MacMillan beckoned me aside and said that he had decided to give me the puppy, as he found myself booked for lectures so far ahead, that he would be unable to care for it. In spite of the numerous requests for the pup he wanted me to have it. Dr. MacMillan gave me the following statement, regarding the dog he presented to me.

Cairo, Egypt—Plans for utilizing part of the tremendous water power of Africa were made at a convention of British scientists here. Nearly half the potential water power in the world is in tropical Africa, but only a small part of it is developed. Asia ranks second, with North America, South America and Europe following in the order named. The water power of Australia is very slight.

Austria is transgressing a per-
iod of economic depression which
is due partly to the sudden read-
justment of its economic structure
under the terms of the recently ob-
tained loan, and partly to the huge and unfortunate speculations
on the slump of the French franc
last spring, which led to the col-
lapse of some of Austria's oldest
and biggest banks. Here, too, the
expected reorganization of German
economics is believed to
strengthen Austria's business life.
Articles of fashion and objects of
luxury and industrial art, for
which Germany used to be the
strongest market, have been ac-
cumulating in Vienna's business
houses owing to the almost absolute
lack of orders from German
buyers, and business circles in the
Austrian Capital are firm in the
conviction that Germany's read-
justment in business is bound to
reflect favorably upon that of the
Danube country.

Thanks to the businesslike
handling of Hungary's finances
under Jeremias Smith, Jr., of
Boston, League of Nations Fin-
nance Commissioner for Hun-
gary, that country is witnessing
a steady, and obviously permanent
betterment of its living and
business conditions.
Aside from the economic in-
fluence of America and Americans,
however, there is a point where America's moral prestige
could ever assure.

“HAIL, HAIL, THE GANG'S ALL HERE!”

Congressman John Philip Hill of Baltimore staged a party for his friends at which he served cider of 2.75 per cent voltage. Then he defied prohibition authorities to "pinch" the party. Top shows the party in progress with Representative Hill in foreground. Bottom shows "Franklin Farms," in other words Hill's back yard. Here Hill has the trees on which he grew the apples to make the cider. In back of this picture one can see faces, supposed to represent Prohibition Commissioner Barnes and George W. Crabb, superintendent of the Maryland Anti-Saloon League.

has taken a firm foothold on the new, and invaluable principle of a free understanding among the nations of Europe. The spirit of businesslike, candid negotiation instead of coercion and oppression on the one side, and narrow-minded feeling of revenge on the other.

INFLUENCE RECOGNIZED

The principle of arbitration in international conflicts accepted in the recent London Conference under the direct influences of American businessmen who reason, and calculate where others, with powerless rage—is generally recognized throughout Central Europe, an idea destined to bear the most wonderful fruits in the field of international relations, which hitherto had been marred in Central Europe by greed, envy and an insane outgrowth of short-sighted nationalism, the destructive and poisonous phenomenon of megamilitaria.

Here, then, in the domain of brotherly understanding among the various nations of Central Europe, is a field where America has admittedly contributed more to progress of blood-stained out-
ward Europe than any economic cooperation, no matter how helpful, could ever assure.

SINGLE CORPS IN FOREIGN POSTS

American Agencies in Other
Lands Are Combined

NEW LAW NOW IN EFFECT

Consular and Diplomatic Ser-
vice Overhauled

WASHINGTON — (By Associated
Press) — The United States
foreign service, including consular
and diplomatic officials in a
single, interchangeable corps, is
now functioning. State Department
machinery having been completely
overhauled and recognized to
put into effect the reorganization of
law passed at the last session of
Congress.

A vast amount of detail work
has been required, but now only
one step remains—inauguration of the
Foreign Service Training School within the department, au-
thorized by the law—to ensure
that future American diplomatic
secretaries and consular officers
are well equipped for the jobs to
which they are assigned.

The first step in the reorga-
nization, effected by executive order,
was the creation of the Foreign
Service Personnel Board to
examine and report on the "char-
acter, ability, efficiency and general
availability of all secretaries in the
diplomatic service, consuls-general,
consuls, vice consuls, career,
consular assistants, interpreters,
and student interpreters." The
report was completed by July
1 and the actual inter-weaving of
the consular and diplomatic services
has been in progress on that
basis.

A primary object of the reorga-
nization, as explained during
debates in Congress on the bill, was
to take the foreign service out
of politics so far as possible. The
personnel board machinery was
designed to relieve the White
House of the task of selecting for
appointment any foreign service
official, except those ambassadors
and ministers who are not taken
from the career groups in the
State Department.

CHANGE NOTED

There are indications already
that the White House has taken
immediate advantage of the relief
thus afforded. So far as known,
selections for appointment to embas-
sies, legations and consulates
are being left entirely to the State
Department.

The Personnel Board also regu-
lates retirement under the Civil

age limit, pensions being drawn
from a fund built up by retaining
five per cent from the salaries
of all State Department personnel.
One member of the diplomatic
corps and 31 from the consular
service already have been
retired.

The work of the Personnel
Board has by no means ended.
Records of all officials have to be
continually overhauled and kept
up to date; individual performances
studied to determine in
what particular field each indi-
vidual is most proficient; special
qualifications and limitations re-
corded for future reference. The
board has also the power to recom-
mend dismissal of officials
whose efficiency rating is low. So
far no dismissals have occurred,
but some offenders have been de-
moted and warned that unless im-
provement is shown they will be
dropped.

The Foreign Service School will
come into full effect after the fall
diplomatic examinations. Success-
ful candidates will attend courses
of lectures on all aspects of con-
sular and diplomatic work, in-
cluding also its subtler sides such
as "trickery, most prevalent
among foreign diplomats, who abuse
the English by the prodigality
with which they scatter money
about, but there is only one mid-
dler where there are a thousand
and people of relatively small in-
come."

London shopkeepers have

the greater number of Americans
who come to England these days
are people of moderate means,

pence as carefully as does the
frugal Briton. There are still

with which they scatter money

Heart Trouble Held Cause of Sudden Demise

LAND—(By Associated Press)—Hope that the whale-fighter Clifton, with a crew of twenty-eight, survived the night of Sunday and Monday on Huron, practically was given up today. Most vessel men believe that the boat, more than a hour overdue at Detroit, sank with her crew and cargo of 100.

Owners of the Clifton put out no hope on the wreckage from the Clifton seen by the scores of people along Lake Huron, or sent out to search.

parts that the Clifton put in at Tawas and Oscoda, Mich., Huron Tuesday were discovered. Lake men ridiculed reports that she had put in at Oscoda, declaring that the Clifton twenty feet of water and it is possible for her to have reached the harbor.

NEW SCHOOL IS POLL ISSUE

\$150,000 Structure Sought in Shawnee-tp.

ANNUAL FUND SAVINGS
Facilities Inadequate, Clerk, Superintendent Claim

Construction of a \$150,000 centralized high school will be an issue at the polls in Shawnee-tp.

A resolution putting the matter before the voters of the township, in the form of a bond issue, was referred to the board of elections today by trustees of the Shawnee-tp. district.

The proposed building will stand in the center of the township, about a half mile from the town hall. It will eliminate all other school houses in the township, with the exception of the four-room grade building at McBeth.

It will also enable 149 children of high school age who have been enrolled in the Lima, Spencerville and Wapakoneta high schools to attend school at home.

WE MONEY

"We are proposing to build to better educational facilities and to save money," declared F. Clem, clerk of the school board. "It is now costing us from \$100 to \$30,000 annually to transport high school students and tuition in Lima and elsewhere. The board feels that it can build a new school for \$150,000 and not the children at home for money."

Several of the old school houses in the township were closed last year, Clem said. To make the training buildings modern, he says will require a large outlay of money.

In one country school last year, one girl was enrolled. There are more than a dozen boys.

Parents of the girl are said to be used to sending her to school a year unless other girls are allowed to keep her company.

There are about 600 grammar students in the township who will attend the proposed building.

upt of Schools C. A. Arganbright is strongly in favor of the structure.

"It has reached the point," he said, "where it is economical to centralize its schools to save cost of transportation and tuition."

No definite number of students are required for a first class in school," Arganbright said. "Everyone has a first class high school with an enrollment of less than 100, and there are others in the county with less than will be enrolled in new school."

Shawnee-tp. is the wealthiest township in the county and one of the richest per capita in Ohio. A overflow population from a is pushing year by year into the township, and some of the most prominent business men in country homes and pay in Shawnee-tp.

There isn't a mile of mud road in the township, and trustees keep pikes smooth as city boulevards.

AMOS PEPIOT, GROCER, DIES AT HOME THURSDAY

Following an illness of six weeks from a complication of diseases, Amos N. Pepiot, grocery proprietor, died Thursday night at his home, 216 N. Washington-st.

He had been a resident of Lima for 14 years and ran a retail grocery at 714 N. Washington-st. He leaves four sons, L. A., L. M., Adam and Paul Pepiot, all residing at home; four daughters, Mrs. Eva Wannamaker, of Payne; Mrs. Vera Thiemann, of Toledo; Mrs. Gertrude Kohler and Miss Celestine Pepiot, of Lima.

Funeral services will be held Monday at 9 a. m. at St. Rose Catholic church. Burial will be in Gethsemani.

EMBEZZLEMENT CHARGES FILED AGAINST O'MALLY

Jack O'Mally, private detective and former sergeant in the Canadian Royal Mounted Police, was arrested on an embezzlement charge late Thursday and arraigned before Justice of Peace E. M. Borkin.

Complaint made by M. C. Gambrill, agent for the National Surety Co., resulted in the arrest.

Gambrill charges that O'Mally unlawfully and fraudulently embezzled and converted to his own use without consent of the owners, \$40, alleged to be the property of the Timmerman Motor Sales Co., of 545 W. Market-st.

O'Mally, it was learned, was employed by the concern in investigation work. It is said that around some of his exploits in the Canadian northwest, the moving picture film, "O'Mally the Mounted," was written.

He told Justice Borkin that he can clear the matter up satisfactorily. Since coming to Lima O'Mally has been engaged exclusively in private detective work.

KUGELMAN TO HAVE OPENING

Manie Kugelman, manager of the Star Clothing Company, announced Friday that he would hold his formal opening Saturday, September 27, at which time he would celebrate the completion of the remodeling of his store and dedicate same in honor of the working people of Lima and vicinity.

Kugelman states that extensive preparations have been made for this occasion, and he promises to make it the biggest event of its kind ever held in this city for the working people. Souvenirs will be presented to all visitors and a special present will be given to every customer.

At the time Manie became actively in charge of the Star he launched an extensive advertising campaign, announcing the policies under which he would run his store, stating that the Star would be operated in the interests of the working people on their own terms of pay.

The remodeling work having been completed, Kugelman claims his store to be the finest equipped credit store in this section of the state, as many will see as they attend the big event tomorrow.

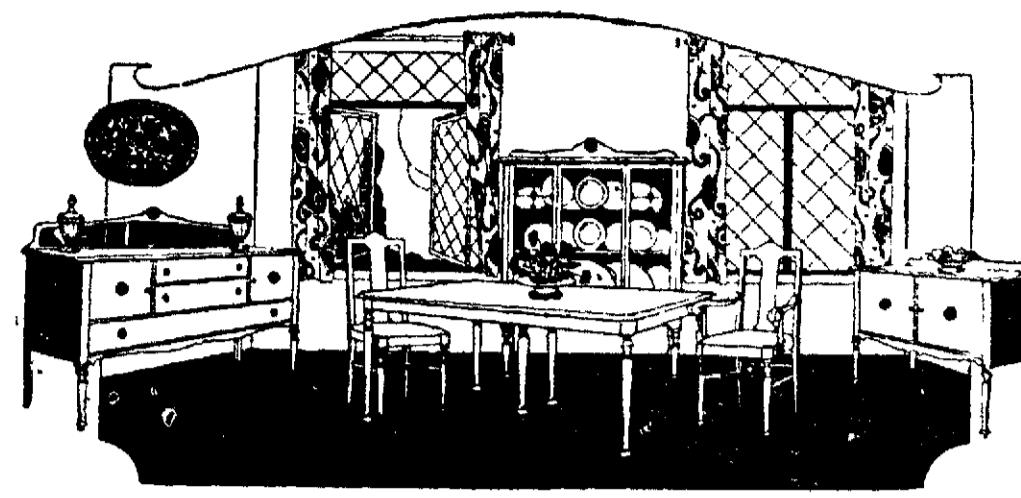

Kugelman takes no credit for his success. He states it is due entirely to the efforts of his loyal friends and patrons, the working people.

SUSIE SMART'S ADVICE

Dear Miss Smart: When one is introduced to a person and then a departure is necessary, often one says that he is glad to have the pleasure of meeting you but what then should they do?

Would you mind reprinting the way the alarm solution reads that you said was good for large unknowns?

Miss Smart, I am a junior in high school and almost sick to think that I am taking college preparatory course. Matters have been so bad at the home that make it impossible for me to go to college. Could I make arrangements where out of high school and leave to be a housekeeper or typist? It's hard and do you know the tuition at this Lima business college? How long would it take to learn what I am interested in?

The person addressed merely says, "Thank you" or "Thank you, I am glad to have met you, too."

To make alum water, pour one pint of boiling water over one spoonful of alum. Let stand 24 hours and strain, placing in a bottle for use. Before using the alum water, place your feet in water as hot as you can stand it for about ten minutes. Then massage with alum water. You should then retire for the pores of your system will be open, and you run a great risk of catching cold. It will not hurt to bathe the ankles every night in alum water, but do not take the hot foot-bath more than twice a week.

Why wait until you have graduated from high school to take a business course? I am quite sure that you could make a change right now from one course to the other, as long as you will to take a position as soon as possible when you leave high school. If you are more interested in book-keeping than shorthand and typewriting, you could take two years of bookkeeping before you are thru high school. Or, you could take shorthand and typewriting. The business course in high school is an excellent one, and I think you would be making a mistake in not taking it. Consult your principal about a change. I do not know the cost of a course at the Lima Business college, but do not think it would be too hard for you and I know the courses given are very good ones.

MAN, WANTED BY LAW, ESCAPES

Solicitor Without Permit Is Sought; Arrest Soon

A house-to-house solicitor, who has been operating for the past few days in Lima without a permit, escaped the clutches of the law Friday morning by fleeing the city in a Ford sedan before police could head him off.

The man and his alleged wife had been selling toilet articles from house to house, stating to their customers that the profits from their sale went to the Francis Juvenile Home in Chicago. When phone calls began coming in to the board of commerce stating that they were operating without a license, Miss Marietta Day, acting secretary, got track of the two and had the man come into the office Friday to question him.

The solicitor stated to Miss Day that he was staying at a local hotel with his "wife." When questioned, he said they were married in Canton in 1901. Miss Day went into another room, called Canton by telephone and found that they had no record of a marriage between the two. When she returned the man was gone. He was seen running down the street at top speed.

The number on the man's machine was obtained and it is thought he will be arrested shortly and brought back here for further questioning.

JUDGMENT CONFERRED

LAFOLETTE TO SPEAK IN SCORE OF STATES

DEED AMENDED
OTTAWA—Joseph LaFollette, independent presidential candidate, has decided definitely to make a swing across the continent, carrying his fight for votes into at least a score of states before the closing of the campaign.

The senator's itinerary will carry him into the middle west early in October, on thru the northwest and into Pacific coast states. He intends to wage warfare with particular vigor in California, where electors pledged to him have been ruled off the ballot, forcing his supporters to vote

for electors listed under the capitalist party designation. Several days will be spent stamping the state.

SUIT OPENED
OTTAWA—G. F. Dohert, of Ottawa, has instituted suit in common pleas court against Walter and Pearlee Page, to foreclose a mortgage which he holds on real estate owned by the Pages.

BY PAUL R. MALLON
WASHINGTON — (United Press) — A decisive change in the personnel of the United States senate is in prospect as one of the most important results of the November presidential election.

Of the 32 seats to be filled this year, at least eight will hold new personages, it already has been determined.

The primaries moved into the final personnel this year as never before. A half dozen family heads already have been pried off and each primary to some holds similar forebodings.

Sixteen Republicans, fourteen Democrats and one Farmer-Laborite are up for re-election. The Democrats, most of whom come from southern states, are arrayed over the Republicans to tap their chairs.

Of the Republicans Senator of Delaware, Colt of Rhode Island, Elkins of West Virginia, Buckley of Illinois and Steig of South Dakota must be re-elected. Ball failed to get nomination which was obtained by Coleman T. Dupont. Colt defeated in primaries in his respective states.

REE DEMOCRATS OUT
The only three Democrats who certain not to return are Nelson B. Dial of South Carolina, L. Owen of Oklahoma, John E. Shields of Tennessee. Three however, come from his originally Democratic districts and their successors are certain to be Democrats. Dial and his were defeated in recent primaries. Owen declined to run.

YANKS TO CROSS OCEAN IN ZR-3

Three U. S. Navy Officers to Travel in Dirigible

MOST OF CREW TO STAY

Positions for Germans obtained in America

FRIEDRICHSHAFEN — (By Associated Press) — Most of the crew of 26 officers and men of the ZR-3, after arriving at Lakewood, New Jersey, will remain in the United States. Positions already have been obtained for them connection with the building of dirigibles for commercial purposes.

Dr. Hugo Eckner, president of the Zeppelin airship company and commander of the ZR-3 on the trans-Atlantic trip, however, has to return to Germany after stay of two or three months in America. Dr. Eckner has agreed to visit New York, where he will spend a month or so, and then there goes to Chicago, St. Louis, Milwaukee, Detroit, and other cities where he will inspect plants of particular interest to him. Captain Ernest A. Lehmann, executive officer of the ZR-3, the flight, who was in error last spring, will join the crew of the Goodyear-Zeppelin party.

EW IN CHARGE

Dr. Eckner and his crew will be in charge of the ZR-3, after arrival at Lakewood, but the big airship has passed further inspection by American naval officers. The dirigible has been accepted by the United States Navy captain George W. Steele, who assigned to make the trans-Atlantic flight as an observer, take command. Lieutenant S. M. Kraus, U. S. N. R., who is to be engineer in charge of the ZR-3, and Major F. M. Taylor, U. S. Army, also were assigned to make the voyage tohurst as observers. These Americans will be the only officially required for Americans traveling to Mexico, Canada or Cuba, the State Department gets numerous applications for them.

A passport is valid for one year and is subject to renewal for another 12 months at the end of that period. Americans traveling abroad may get new passports by applying to American Consular offices.

Hugo Eckner, commanding officer; Captain A. Lehmann, executive and watch officer; Hans Flemming, navigating and signal officer; Wilhelm C. Siegle,

chief engineer; Franz A. Wittmann, chief quartermaster; Hans von Schiller and Walter Scherl, assistant quartermasters.

Following are the warrant officers: Ludwig Marx, rudder helmsman; Max Prum and Carl A. Sammt, elevator helmsmen; Willi Speck, chief radio operator; Leonard Freund and Johann R. L. Dindig, assistant radio operators; Gustav E. Belser, chief machinist; August H. Grössinger, Hermann Pfaff, Emil Martin, Hermann Pabst and Carl Tielemann, assistant machinists. The remainder of the crew will be made up of seven petty officers.

PASSPORT RUSH ENRICHES U. S.

1,400 Applications Daily in Summer Months

WASHINGTON — (By Associated Press) — The passport business has been a flourishing one for Uncle Sam this summer. It has strengthened the claim of the attaches of the Division of Passport Control of the State Department that theirs is the one unit of the department that more than pays for itself. During the months of May, June and July, passport applications averaged between 1,300 and 1,400 a day. Figures for August are not yet complete.

The great majority of the passports are written in Washington, only a few emergency ones being issued in the field. The absorption rush this year was occasioned by certain conventions abroad, and the competition among steamship lines to secure the trans-Atlantic passage rates.

All the countries of Europe, save Belgium, Switzerland and Holland, require visas for which a charge of \$10 is made, and must be obtained by the visitor before entering the country. The Irish Free State has been the latest country to fall in line and asks the customary "ten spot" from souvenirs in the Emerald Isle. Uncle Sam started charging a \$10 fee for issuing passports in July 1920.

Altho no passport or visa is officially required for Americans traveling to Mexico, Canada or Cuba, the State Department gets numerous applications for them as a protection.

A passport is valid for one year and is subject to renewal for another 12 months at the end of that period. Americans traveling abroad may get new passports by applying to American Consular offices.

BERLIN BUILDS CASTLES WITHOUT ROYAL GUIDANCE

BERLIN — There has been a reaction in Berlin against the style of city architecture which was popular in the old days, with William Hohenzollern, and which he was not slow to enforce. The taste of the former ruler is declared today to have been distinctly bad, and now the municipality will have no more of it.

In Potsdam the reaction shows particularly. Here are the palaces of the former royal family, and many of them are being restored to the condition they were in prior to the ascent to the throne of William II. The same policy is to be followed out in Berlin, with its many castles and palaces.

After 40 years in the limelight—after 35 years as a stage star—I still look a girl of 19. The thousands who see me daily know that, and wonder how this came about.

The chief reason lies in a new type clay.

I started years ago with the old-type clays, crude and muddy, which so many still employ.

They brought me amazing results. But I have kept in touch with scientific progress,

and in 20 years it has brought me a clay which gives multiplied results.

Today I have what experts call the last word in facial clay. It is white, refined and dainty. And it embodies many new discoveries. Until I obtained this, I never knew one-tenth what clay could do.

Now I am supplying this clay to others.

I call it my White Youth Clay. All druggists and toilet counters know it and I am statistic to girls who want more beauty and to women who want youth.

My White Youth Clay purges the skin of all that clogs and marks it. It removes the pores, the wrinkles and blemishes. It brings the blood to the skin to nourish and revive it. The result is a rosy afterglow which amazes and delights. And it works without dropping ten cents with one application.

It firms the skin, combats all lines and wrinkles reduces enlarged pores. No girl or woman who once enjoys its results will ever want to do without it.

I want you to know what it does. My good fortune obtained it for me. I was famous as a beauty, so every expert sought to give me the greatest aids to keep me that way. Now I wish to bring like benefits to millions.

Write me for my Beauty Book and I'll send with it something else to please you. Edna Wallace Hopper, 836 Lake Shore Drive, Chicago.

NEW YORK IS ROLLING ALONG UNDER GREAT MOMENTUM

Local Football Squads Prepare For Important Games; South Hi Takes On Bellefontaine

GIANTS SWEEP SERIES FROM PROUD PIRATES

BY HENRY L. FARRELL

NEW YORK.—(By United Press)—Two more victories, as they now stand, will put the New York Giants into the world's series and with three more victories the Washington Senators will become their opponents.

CAPITAL IS BASEBALL MAD

WASHINGTON.—The nation's capital, bubbling over with confidence that the Senators are going to win the American League pennant, wants to turn out en masse and parade behind the Hards outfit when it returns Wednesday.

The celebration, which President Coolidge has promised to review, bids fair to be so large that a half has been called on envoys.

Besides city fans, parade managers said, all of northern Virginia and a part of Maryland wanted to troop in the procession.

And so Washington, more familiar with big parades than any other city in the nation, found itself upset with the prospects of a baseball parade and an unprecedented traffic jam.

So plans were revamped and now men carrying the team and a committee of welcome is the limit set on the procession, but Washington fans remain happy for sideline seats are still "catch as catch can."

Regardless of what the runners up in the two major leagues do in their remaining games, the Giants and the Senators can lose one more game and win the pennants.

The Giants are idle today but they start Saturday against the Philadelphia Phils in a three-game series that will wind up the season. It is improbable that the Phils will be able to win one of the three games as the Giants are rolling along under great momentum and their pitching is better than it has been all season.

In sweeping three games from the Pirates and knocking them clear out of the pennant race, the three-times champions played baseball that was almost unbeatable. The Senators will have a time with them in the world's series even if Helene Grob and Frank Frisch do not get back into the game.

The Brooklyn Robins have only two more games to play against the Boston Braves and the Robins probably will win both games but unless the Giants crack and lose three games to the Phils, Brooklyn has no chance to win the pennant.

If the Giants lose two games to the Phils and the Robins win their pair the two clubs will finish in a tie for first place. They would have to play it off then in a three-game series.

The New York Yanks, two full games behind the leading Senators start on their last stand today in Philadelphia.

Their hope to get into the series is forlorn.

Washington can clinch the pennant by winning three of the four remaining games from the Boston Red Sox. If the Senators should happen to drop two games and the Yanks should win four from the Athletics they would finish in a tie. The Senators would have to lose three out of four to lose the pennant if the Yanks didn't lose another game.

The Yankees will have a harder time in Philadelphia than the Senators should have in Boston. The Athletics are playing fine ball now, as they most always do when it is too late. They ruined Detroit's chances for the flag by sweeping a whole series from the Tigers and they are now primed to do the same stunt to the Yanks.

The Giants can clinch their pennant Sunday afternoon but the Senators cannot attain their mathematical certainty until Monday, unless the Yanks are upset in the first two games at Philadelphia.

Ryle To Meet McPherson Oct. 8

The Business Men's club have made all arrangements and have the sanction of the boxing board to put on their second show at K. C. Hall, Wednesday, Oct. 8. Because of the slashing victory of Young Ryle of Toledo, over Don Baxter at the Delphos show last Wednesday night, he has been matched to meet clever Perry McPherson, of Lima. This should be a battle for the gods. From a boxing standpoint McPherson is cleverer than Baxter, and the boy marvel, will have a much harder time hitting him.

Others on the card will be Jimmy Koontz, of Gallon and Young Pence, of Delphos. Ray Harmony and Young Alexander are also matched. It will be remembered that Pence got the decision over Sauer Grant, at Sidney the last time they boxed, while both Alexander and Grant have known over Browning.

ATLANTA, Ga.—(By Associated Press)—The national amateur golf tournament is in its second round today with Robert Jones, Jr., of Atlanta, play-

ing. Mayor of Philadelphia and former champion, Fletcher V. Elm, of Los Angeles, Jones and Elm are sorry the golfers did not get them to participate early over on the way to the first step to the throne, there are no closer friends in the game.

INTERNATIONAL TURF CLASSIC WILL BE RUN SATURDAY

More College Teams Get Started On 1924 Schedule Than Ever In History Of Game

PINARD AND LADKIN FAVORITES IN RACE

NEW YORK—(By United Press)—Six starters, with possibility of two more, are expected to go to the bar tomorrow for the second of the big international races.

The sure starters, according to information today, are Pinard, Pierre Wertheimer's French champion; Augustin's Ladkin; the Rancocas stables' Zev; Admiral Wilson's My Own; F. A. Burton's Wise Counsellor, and I. L. Humphries' Little Chief.

Blalto, from the Greentree stable, may start and if track is heavy, R. T. Wilson's Wilderness is almost sure to.

There may be other overnight entries.

Pinard and Ladkin, who ran second and third behind Wise Counsellor in the first international race at Belmont Park, are ruling the favorites in the betting.

CLASSIC PLAYS OF GRIDIRON

BY DR. J. W. WILCE

Ohio State University Coach

Eighty thousand people had wedged into the mammoth concrete horseshoe. From "cork" to "cork" it pulsed with humanity. Bands played. Flags and pennants went up. Machine guns barked in salute. A football appeared. The teams lined up. A whistle. The kickoff. And the Ohio Stadium was dedicated. There you have a staccato picture of one never-to-be-forgotten October afternoon in 1922.

Now let's turn to another October afternoon in 1916. The scene is Illinois Field, a morass of mud. Two minutes of a bitter struggle remain. Illinois clings to a six-point lead, the result of two accurate kicks. But Ohio, the an-yet unsung babe of the Western Conference, was threatening. A long forward pass from "Chic" Harley to Ed McDonald had carried Ohio from its 20-yard line to midfield and a succession of short tosses, in which the martyred aviator, Fred Norton, figured prominently, made it fourth down with three yards to go on Illinois' 13-yard line. Then came a great play.

Again it was Harley back, with the option of passing or running. Illinois' right end charged in a few steps, then dropped back. In that instant Harley decided what to do. He faked to pass, then ran to the left. Two teammates going to the left as possible receivers blocked the defensive end and right halfback. Harley outran the fullback, straight-armed the defensive right end, who had been only partly blocked, straight-armed the safety man, and dove for a touchdown in the extreme left corner of the field. The winning point hinged on the success of the free kick, from a difficult angle to the left of the goal posts. Harley was not thru thinking. He called time, asked for a clean right shoe to replace the mud-heavy one he had on, then made good the goal and game.

That play, tho no one knew it at the time, was the genesis of the movement for the Ohio Stadium, a movement that gained impetus and finally crystallized into an active campaign and the great moment pictured in the first lines of this story as Harley repeated with variations his exploits in his first Western Conference game.

Ohio continued to win games and public enthusiasm ran high.

So you see the far-reaching effects a thrilling play, particularly

several seasons of them, may have.

COACHES ARE HARD PRESSED

COLUMBUS — Eighteen

Ohio college football teams launch upon their 1924 gridiron schedules tomorrow afternoon. This is the greatest number of moleskin squads ever to take to the actual contest field so early in the season in the history of Ohio football.

The Wooster Indians is not

worrying about his line for this

game as was the case last year.

He will start six of the seven men

who bore the brunt of the defense last year. The only new face on the line will be at left tackle. This is likely to be Critchfield or Kate.

Shumaker, a tackle prospect, will

be out with bad ribs.

The big question to be decided

is just who will be in the backfield.

Captain Stern is sure of one position and Hurst is sure to start at one of the halfback places. Smith, Fox, McGlashan, Mitchell or Smith may set the call. "Red" Love, Akron South athlete and a good back is out of this week's game. Love is under the weather with a severe cold.

Ashland has played at Wooster

Most of the standard industrials and the improved fractionally.

Railroad shares moved up briskly in reflection of the record-breaking car loadings and the rail curtailment of expense shown in the August earnings statement now being published. High Valley advanced 1 3/4 to 24, the highest price since the gregation of the coal properties, while Southern Railway, Frisco, Union, Peoria and Eastern and Chicago, Great Western preferred at their highest prices of the year. Park and Tilford and Grand Island climbed to higher ground on merger rumors. General Baking, National Lead and International Combustion Engine advanced 1 to 2 points but Union and Loos Wiles Biscuit held on profit-taking. Foreign exchanges opened steady.

Easy money rates and the plenty of funds available for stock market and commercial purposes turned to favor operations on long side which were successfully conducted in a number of rails, public utilities and securities during the morning. An expanding investment demand suggested by the rise of one four points in Atlantic Coast, Lackawanna, Brooklyn Ed., National Lead, Pullman, Associated Dry Goods and Union Carb. Stewart-Warner moved more than two points and other accessories improved in sympathy. Texas Gulf Sulphur, Ind. Company and Worth Pump also were under action.

Standard Plate Glass pped 2 1/4 to 19 1/2 or within half fraction of the year's low. American Express, General Electric, National Ensmeling and Farman Sumatra Tobacco sagged two points. Call money moved at two per cent.

Easy money rates and favorable news were important contributing factors to the length of today's stock market. Many issues, many of them and southwestern rails, gained new 1924 highs. Sales approximated 825,000 shares. The closing was strong.

our nameLet Kellogg's Bran free your children
from that dangerous disease—constipation

Children are subject to constipation. In the excitement of play, they neglect themselves and foster this dread disease. More than forty other diseases can be traced to constipation. Don't delay. Begin at once to cleanse the system of the dangerous poisons.

Kellogg's Bran sweeps the intestine clean—and purifies it. It drives out the poisons which undermine your children's health. It makes the bowel system regular and natural.

As a cereal, with milk or cream, they will enjoy Kellogg's Bran, cooked and krumblod. Sprinkle it over other cereals. Cook it with hot cereals. Try it in delicious muffins, bread, griddle cakes and other recipes given on every box.

But start them eating Kellogg's Bran to-day. Start every member of your family eating it. Kellogg's Bran, cooked and krumblod, is made in Battle Creek and is served in individual packages by the leading hotels and clubs everywhere. Ask for it at your restaurant. It is sold by all grocers.
